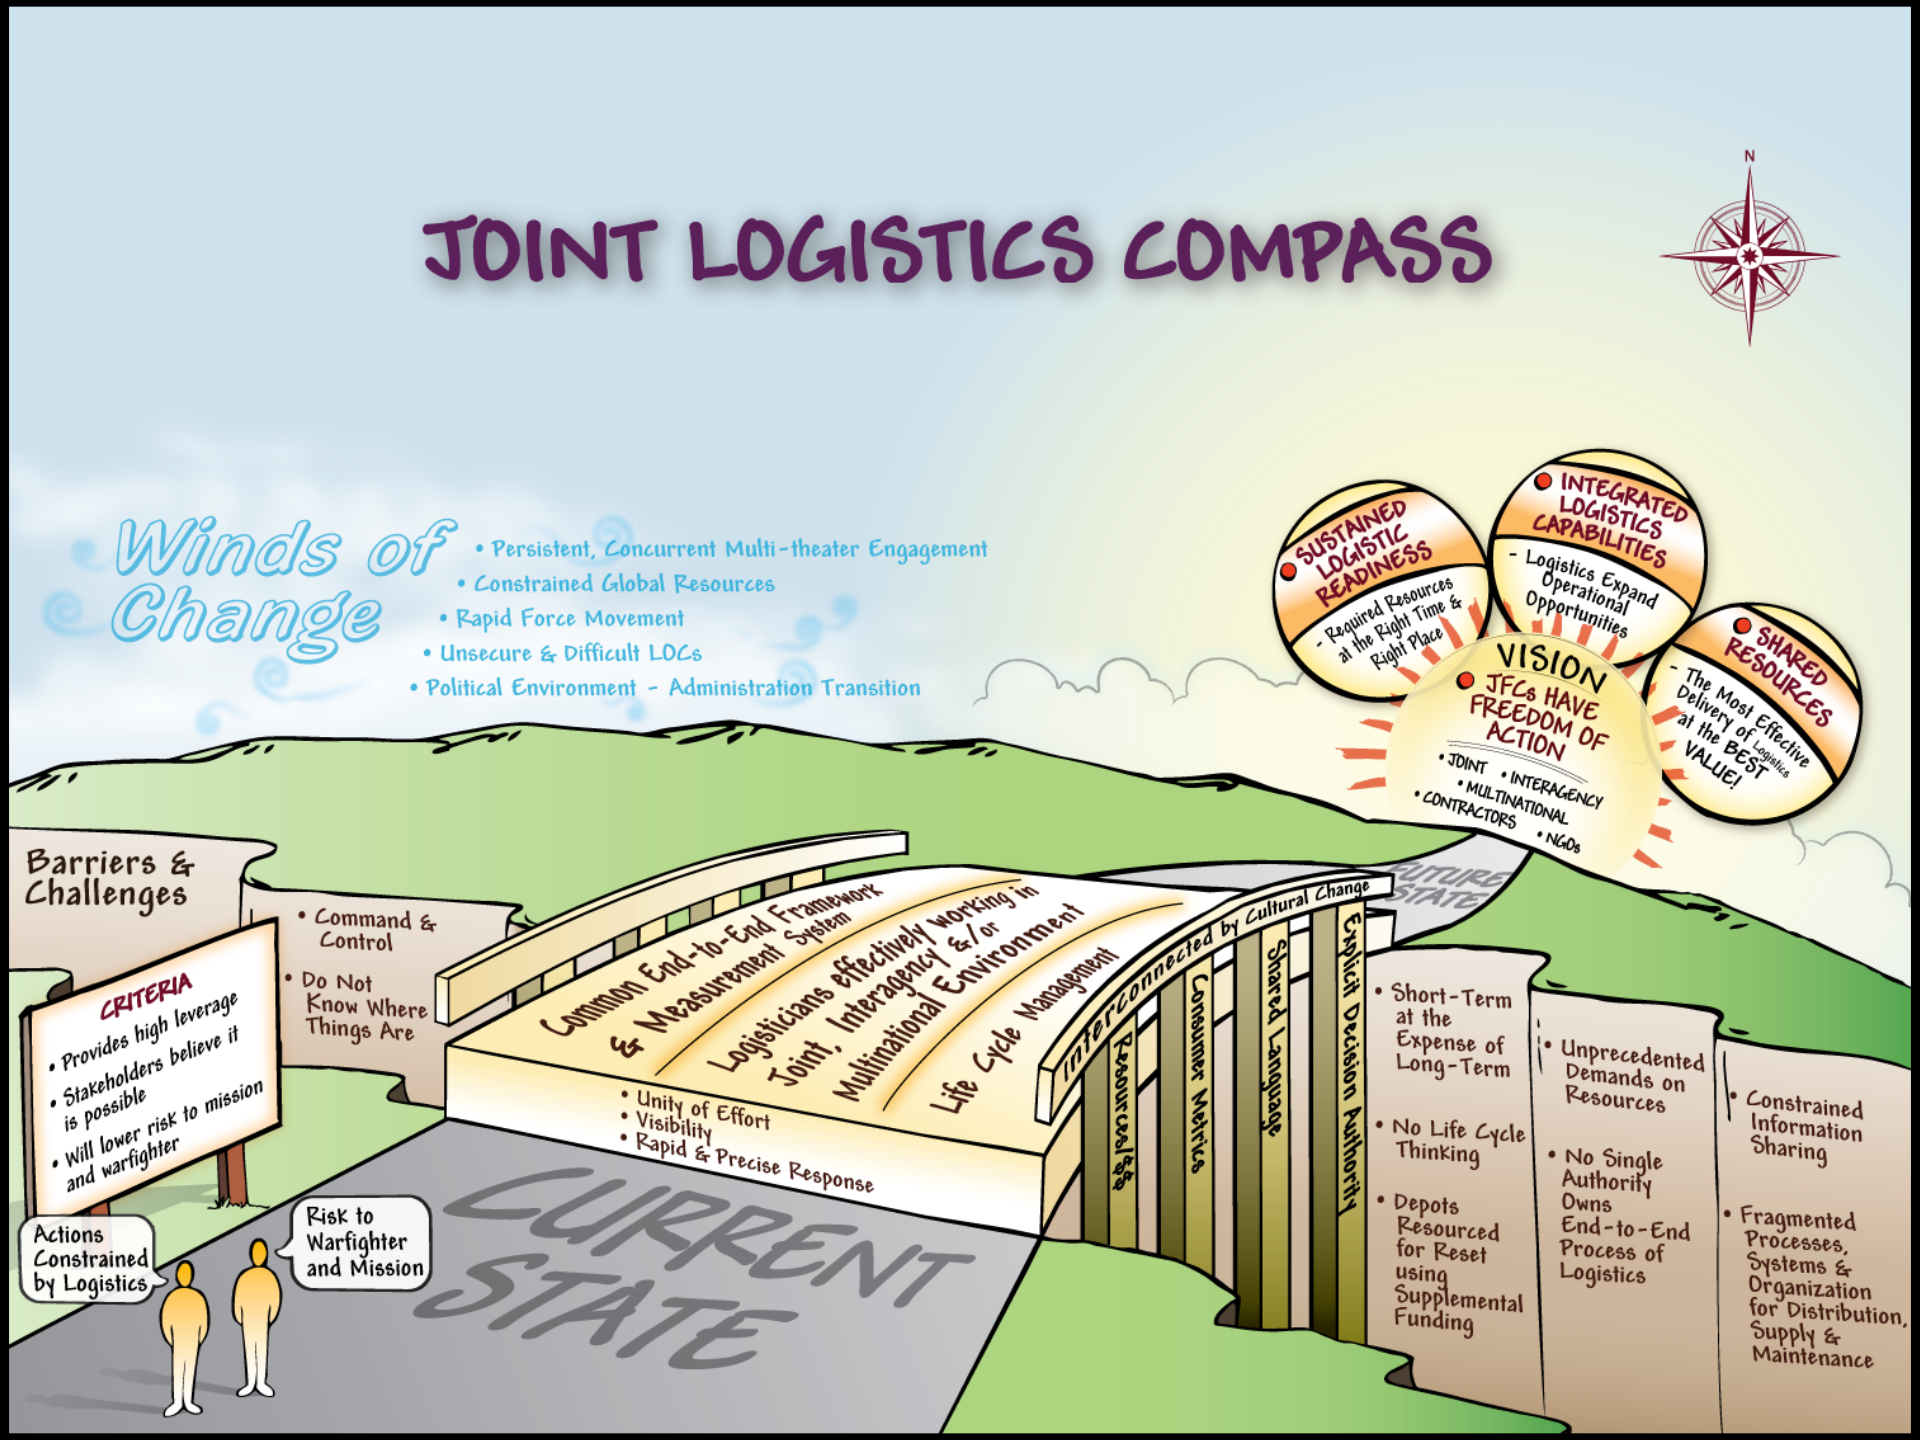
JOINT LOGISTICS COMPASS

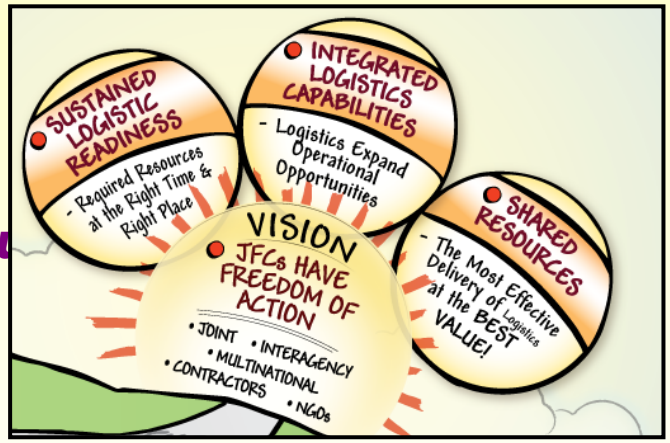


N
Winds of Change
• Persistent, Concurrent Multi-theater Engagement
• Constrained Global Resources
• Rapid Force Movement
• Unsecure & Difficult LOCs
• Political Environment - Administration Transition
SUSTAINED LOGISTIC READINESS
- Required Resources at the Right Time & Right Place
INTEGRATED LOGISTICS CAPABILITIES
- Logistics Expand Operational Opportunities
SHARED RESOURCES
- The Most Effective Delivery of Logistics at the BEST VALUE!
VISION
JFCs HAVE FREEDOM OF ACTION
• JOINT • INTERAGENCY
• MULTINATIONAL
• CONTRACTORS • NGOs
Barriers & Challenges
• Command & Control
• Do Not Know Where Things Are
CRITERIA
• Provides high leverage
• Stakeholders believe it is possible
• Will lower risk to mission and warfighter
Common End-to-End Framework & Measurement System
Logisticians effectively working in Joint, Interagency &/or Multinational Environment
Life Cycle Management
• Unity of Effort
• Visibility
• Rapid & Precise Response
Interconnected by Cultural Change
Resourceable
Consumer Metrics
Shared Language
Explicit Decision Authority
FUTURE STATE
• Short-Term at the Expense of Long-Term
• No Life Cycle Thinking
• Depots Resourced for Reset using Supplemental Funding
• Unprecedented Demands on Resources
• No Single Authority Owns End-to-End Process of Logistics
• Constrained Information Sharing
• Fragmented Processes, Systems & Organization for Distribution, Supply & Maintenance
Actions Constrained by Logistics
Risk to Warfighter and Mission
CURRENT STATE

Future State

Freedom of Action for the Joint Force Commander

- **Sustained Logistics Readiness**
  - ✓ *Required resources at the right time & place*
- **Integrated Logistics Capabi**
  - ✓ *Logistics expanding operational opportu*
- **Shared Resources**
  - ✓ *Most effective delivery of logistics at best value*



SUSTAINED LOGISTIC READINESS
- Required Resources at the Right Time & Right Place
INTEGRATED LOGISTICS CAPABILITIES
- Logistics Expand Operational Opportunities
SHARED RESOURCES
- The Most Effective Delivery of Logistics at the BEST VALUE!

Logisticians effectively working in Joint, Interagency &/or Multinational Environment
Life Cycle Management
Interconnected by Cultural Change
Consumer Metrics
Shared Language
Explicit Decision Authority
• Unity of Effort
• Visibility
• Rapid & Precise Response

- **Provide integrated, collaborative tools to enable planning in ar**

Every Stakeholder is Responsible for Optimizing the Entire System

Logisticians Effective in the Joint, Interagency &/or Multinational Environment

4

- **Assess Defense logistics education "landscape" & develop**

  core curriculum in partnership community

- **Establish Joint logistics educat**

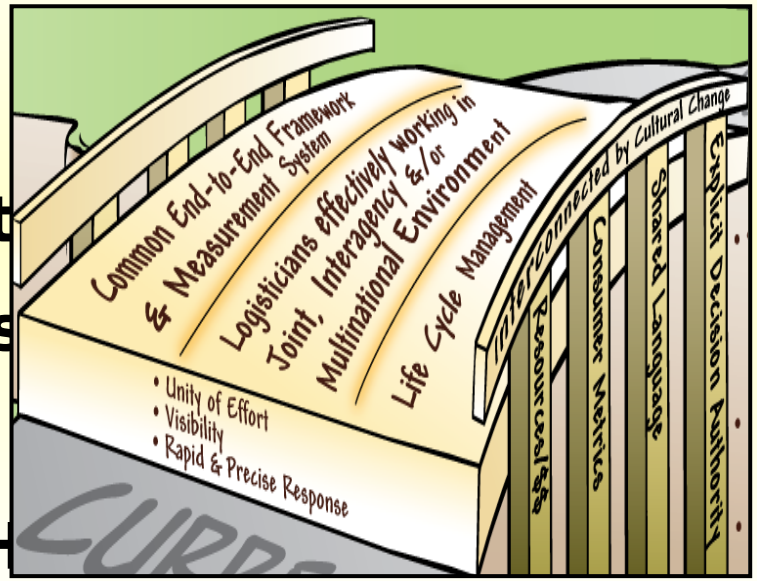
  community of practice/web-bas

  support tools

- **Implement the DoD Logistics H**

  Capital Strategy

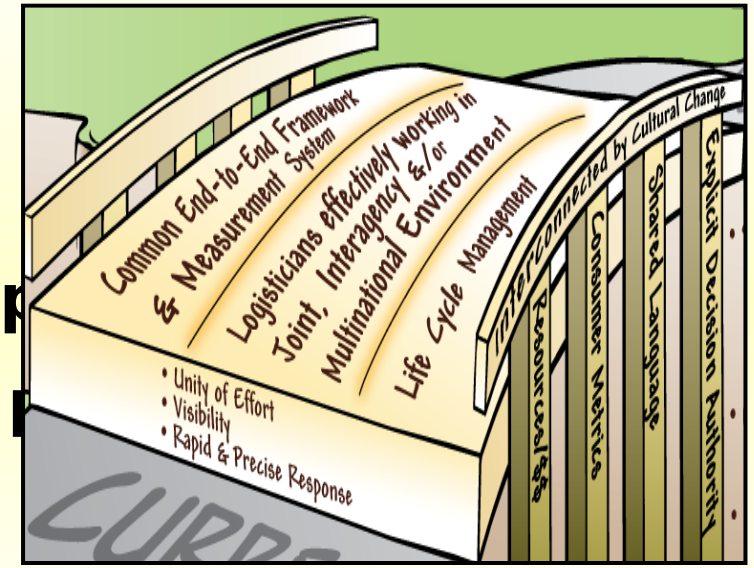
- **Support the new Center for Joint & Strategic Logi**



Lifelong Culture of Learning in the Defense Logistics Community

Life Cycle Management

- **Institutionalize the sustainment Key Performance Parameter & Key System Attributes**



- **OSD/JCS J4 partner to develop tools & processes to support L Cycle management**

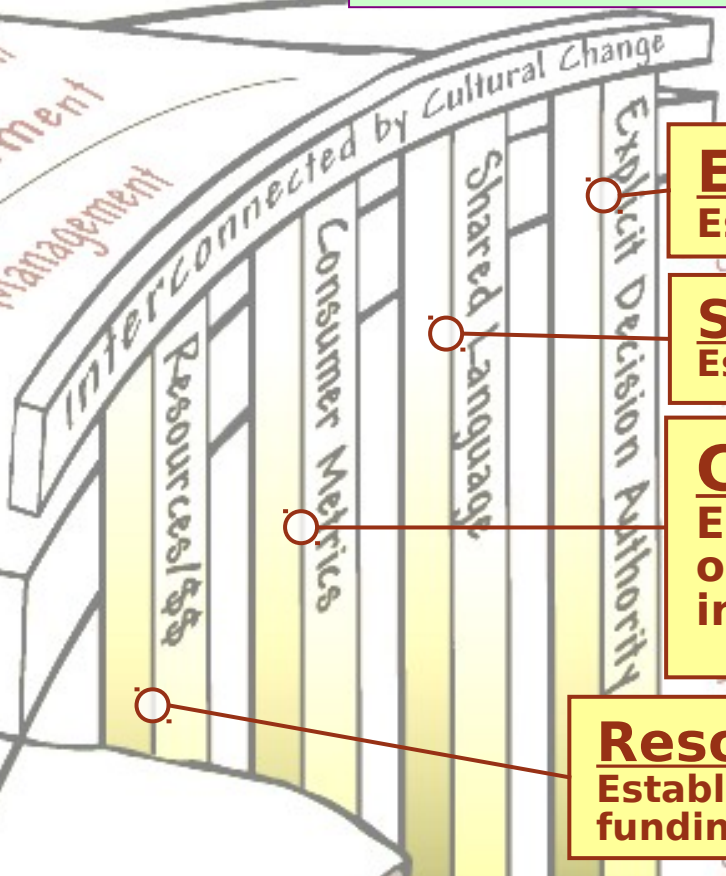
- **Enhance accountability for Life Cycle costs & readiness outcor**

Base Decision-Making on Combat Effectiveness & Total Ownership Costs

Building the Enablers

4

"Fundamental business operations" that must be fixed for the Joint Logistics community to effectively accomplish any initiative



<u>Explicit Decision Authority</u>:
Establish governance/decision authority model

<u>Shared Language</u>:
Establish a shared definition of words and business rules

<u>Consumer Metrics</u>:
Establish REAL and MEANINGFUL measures that optimize the End Consumer capability/experience in a constrained resource environment

<u>Resources</u>:
Establish a process to assess the health of joint logistics funding
